

Introducing

# Amber Connect Fleet 3.0

## Find the right plan for your business.

Our award-winning solution has undergone a massive change to give you better than best, in vehicle security and telematics, our promise to you is to deliver the best telematics & Unparalleled control over the safety & security of your fleet.

### Pro

**The Pro package** includes all the functionalities that a small fleet will need. This package enables our customers to secure and track vehicles through simple location tracking and alerts. Perfect for a budget sensitive customer who wants a discrete set of security features.

### Business

**The Business Package** pulls the most popular features from our existing B2B solution and is tailored for any size fleet that requires management features and extended reports for business intelligence.

### Enterprise

**Our feature-rich premium Enterprise package** is for customers who want a comprehensive set of features for vehicle security & telematics. This includes route optimization, & granular reports to drive every aspect of business intelligence. Enterprise also includes Amber Shield, Risk Telematics & Driving Score.
